None.

It would be helpful to explain the labs or give a small lecture in-lab that is relevant to the work required for the lab. Often, the lab would be completely different than anything seen in class.

sam block is an awesome ta

I wish the TA's knew more about the lab when I went to office hours. There were some times I would ask a question and the TA's had not even read the lab. Mark and Adam were especially helpful and would often stay extra hours to help us out with the labs.

Bloomfield almost never appeared in lab. Some of the labs seemed more tedious and complex than they ought to have been (the hash table lab and the x86 lab reports).
